A little light reading on this chosen competition wine....**The Characteristics of d'Arenberg 'The Footbolt', you'll want a glass after reading this....**

*The cool ripening conditions of the 2011 vintage have helped craft a wine that is refined yet structured. The nose is incredibly lifted and fragrant, red fruits and peppery spices feature strongly. As the wine breathes we are struck by a raft of darker and more earthy aromas such as mulberry, black plum, soot and baking spice. The palate is pleasantly bright with lively acidity and elegant fruit weight. A generous dose of mineral fruit tannin ensures the wine is structured and wonderfully long. As this wine ages it will develop more generosity and complexity through the mid palate, but the acid and tannin structure will ensure it stays lively and long.*
